This course builds up skills on as FULL STACK Developer. By Using HTML, CSS, JAVASCRIPT, REACT.js, MySQL.

➢ PROJECTS

✓ **MERN FULL STACK PROJECT (Excel Analytics Platform):** The Excel Analytics Platform is a full-stack web application built using the MERN (MongoDB, Express.js, React, Node.js) stack. The project aims to simplify the process of uploading, analyzing, and visualizing Excel data.

✓ **CRUD APPLICATION:** This is a simple MERN (MongoDB, Express.js, React.js, Node.js) stack application. It serves as a template for building full-stack web applications using these technologies. User can perform CRUD (Create, Read, Update, Delete) operations on a simple data model.

✓ **REAL TIME CHAT APPLICATION:** The application provides a seamless and interactive messaging interface that allows users to exchange messages instantly over a WebSocket connection.
